Professional Experience

Software Developer, Insider [↗](#)

08/2025 – 01/2026

- developed solutions/algorithms for global companies
- provided technical support for user segmentation, web services, and growth management projects
- leveraged expertise in JavaScript, jQuery, HTML, and CSS to deliver advanced development projects
- optimized application performance and code efficiency
- applied Agile (Kanban/Scrum) methodologies and utilized Jira for effective project implementation and management
- contributed to the successful implementation of front-end best practices such as component design and accessibility standards, improving code maintainability and consistency across team projects

Test Camp Participant, Commencis

04/2025 – 05/2025

- learned the fundamentals of software testing and its role in the SDLC

Software Engineer Intern, Wisersense Information Technologies

07/2024 – 08/2024

- worked on Linux systems to build and deploy IoT projects

Ankara, Turkey

Education

B.S. Information Systems and Technologies (CTIS), Bilkent University

Comprehensive Scholarship

2022 – 2026

Ankara, Turkey

B.S. Business Information Technology, Haaga-Helia University [↗](#)

Exchange Semester

01/2025 – 05/2025

Helsinki, Finland

Projects

STS, Sales Tracking System (B2B SaaS Platform) | Next.js, TypeScript, Tailwind CSS, PostgreSQL

- architected a full-stack B2B SaaS platform for inventory and order management using Next.js App Router and Supabase
- implemented an enterprise-grade Role-Based Access Control (RBAC) system to secure administrative dashboards and complex CRUD operations
- utilized Next.js Server Actions and configured Edge Middleware to manage localized routing (i18n) and globally authenticated user sessions

PlanO, Cross-Platform Mobile App | Flutter, Dart, Supabase, Firebase

- built a cross-platform mobile application for real-time group coordination and event planning using Flutter and Riverpod
- engineered seamless background processes using a custom Firebase Cloud Messaging (FCM) handler for out-of-app push notifications

Skills

Programming Languages: C#, Java, Javascript, HTML/CSS, Python, C, TypeScript, R

Frameworks: .NET, jQuery, Next.js, Django, FastAPI

Data Management: Supabase, MySQL, Oracle, PostgreSQL

Networking: CCNA 1, CCNA 2

Tools: Unity, Git, Jira, Packet Tracer, Firebase, AWS

Know-how: Game Development, Object-Oriented Programming, API Integration, Networking, Linux Systems, UI/UX Design

Achievements & Certificates

ISTQB® CTFL, ISTQB Certified Tester Foundation Level

06/2025

Languages

Turkish: Native | **English:** Full professional proficiency | **German:** Beginner
